

Seafest Loves Double Talk

What a popular band, Sheryl and Alistair the energised duo making wonderful music together, offering a vast repertoire of covers they have the crowd dancing within minutes of taking to the stage at the Kaikoura Seafest.

They are a show within themselves within their ability to draw such a vast range of age groups to the dance floor together and keep them dancing .

Highly experienced and totally professional they are a proven act , their ability to interact with the audience at any level only showcases the incredible ability to perform these two musicians possess .

They are one our most popular acts bought back by popular demand as often as we can work them through the entertainment program.

We pride ourselves on the quality and high range of entertainers we provide to our event and I acknowledge Double talks contribution in ensuring seafest is the biggest and the best party in town.
